

AG TECHNOLOGIES INC.

- Located in Rochester, Indiana
- Family owned
- Founded in 2011
- EPC solar energy installer
- Installs solar energy for ag community, residential, and commercial
- 6 Full time employees
- Over 100 solar installations completed, totaling ~ 2.5 Megawatts

Craig Welding and Manufacturing, also located in Fulton County, engineers and manufactures the framework which the solar panels mount to. AZZ Galvanizing located in Plymouth, IN galvanizes those materials. Our solar business helps employ others, beyond ourselves!

Our registered trademark, SolarCAM, represents our patented design allowing for angle adjustment of the solar panels, a bright innovation!

We're working to build a better environment for young Hoosiers, while senate bill 309 seeks to darken their future.

Veto SEA 309 and brighten their future!
